

Unit 5

Harmony

Ch 1. Little Drops of Water

The poem "Little Drops of Water" teaches us the importance of small things in life. It explains that tiny drops of water and small grains of sand come together to form the vast ocean and beautiful land. Similarly, small acts of kindness, love, and good deeds help make the world a better place. The poem highlights that even the simplest actions, like speaking kind words or helping others, can bring happiness and peace. It reminds us that small efforts can create big changes and that we should always do good, no matter how small the act may seem.
